Disclaimer

The following presentations as well as remarks/comments and explanations in this context contain forward-looking statements on the business development of the Volkswagen Group. These statements are based on assumptions relating to the development of the economic, political and legal environment in individual countries, economic regions and markets, and in particular for the automotive industry, which we have made on the basis of the information available to us and which we consider to be realistic at the time of going to press. The estimates given entail a degree of risk, and actual developments may differ from those forecast.

All figures are rounded, so minor discrepancies may arise from addition of these amounts.

Any changes in significant parameters relating to our key sales markets, or any significant shifts in exchange rates, energy and other commodities or the supply with parts relevant to the Volkswagen Group will have a corresponding effect on the development of our business. In addition, there may also be departures from our expected business development if the assessments of the factors influencing sustainable value enhancement and of risks and opportunities presented develop in a way other than we are currently expecting, or if additional risks and opportunities or other factors emerge that affect the development of our business.

We do not update forward-looking statements retrospectively. Such statements are valid on the date of publication and can be superseded.

This information does not constitute an offer to exchange or sell or an offer to exchange or buy any securities.

Focused investment spend discipline continues with further notable reduction in 9M 2026

[in € bn & in % of Automotive Division sales revenue]

■ CAPEX ■ R&D

Investment spend significantly reduced y-o-y in absolute and relative terms

Automotive invest ratio expected within range of 11 to 12% in FY 2026

2027-31 investment plan totaling **€ 135bn** in-line with **~9% target ratio**

China Joint Ventures: Proportionate Operating Result

Lower volumes and impairment of legacy platform overshadow strong cost work

2026 performance driven by

- sharply **lower volumes** in **weak market with fierce competition**
- cost related to **new NEV launches** with first **contributions** from Q3
- **impairment** of MEB **legacy platform**¹ (€ 0.2bn)
- intensified **cost work**

Before impairments, proportionate operating result expected **around break-even in full year 2026**

1. These impairments have no impact on the Volkswagen Group's financial statements, as the corresponding carrying amounts had already been reduced to zero at Group level.

Financial Outlook Full Year 2026
