After serving as an executive assistant in development at Škoda, he came to Volkswagen Commercial Vehicles in 2012, where he was responsible for corporate planning in the General Secretariat.

Grünitz assumed management of mechatronic chassis systems in 2014 and additional roles in commercial vehicle development followed, including chassis development in January 2017 and electrical-electronic development in August 2018. In his function as CTO, he has been working on Autonomous Vehicle & T7 since the beginning of 2020 and, in November 2020, he became Technical Director of Volkswagen Commercial Vehicles with overall responsibility for development of the brand.

On October 01, 2022, he will succeed Thomas Ulbrich as Brand Board Member for Technical Development at Volkswagen Passenger Cars.

ACCELERATE
DIGITAL: ENERGIZED

The Volkswagen Passenger Cars brand is present in more than 150 markets worldwide and produces vehicles at more than 30 locations in 13 countries. Volkswagen delivered around 4.9 million vehicles in 2021. These include bestsellers such as the Golf, Tiguan, Jetta or Passat as well as the fully electric successful models ID.3 and ID.4. Around 184,000 people currently work at Volkswagen worldwide. In addition, there are more than 10,000 trading companies and service partners with 86,000 employees. With its ACCELERATE strategy, Volkswagen is consistently advancing its further development into a software-oriented mobility provider.
