CEO of the Volkswagen Commercial Vehicles brand

Stefan Mecha has been Chairman of the Board of Management of Volkswagen Commercial Vehicles since 1 July 2025. Previously, he has been Executive CEO of the Volkswagen Passenger Cars brand for the China region since 2022. Stefan Mecha has been with the Volkswagen Group for more than 15 years. Before joining Volkswagen AG, he held various positions at Sixt AG and Daimler AG.

In 2005, Stefan Mecha became Regional Sales Director of Volkswagen Commercial Vehicles in Western Europe. He then held various positions in sales for the Volkswagen Group in Europe and the Middle East. In 2016, he became a member of the Volkswagen Board of Management in South Africa and Managing Director of the sales company. From 2018 to 2020, he was Vice President of Sales and Marketing in the South America region at Volkswagen Brazil. In 2020, he was appointed as the new General Director of Volkswagen Group Rus. Since 2022, Mecha has been Executive CEO of the Volkswagen Passenger Cars brand for the China region.

Volkswagen Commercial Vehicles

Space for Needs and Dreams: Creating the Future since 1950.

For over 75 years, the VW Bus has stood for reliability and versatility – initially in commercial use and today also in everyday family life and camping. Now in its seventh generation, the concept continues to impress: as reliable Transporter, versatile Multivan, adventurous California, or fully electric ID. Buzz. Whether as a mobile workshop, trusted service vehicle, or utility-driven everyday hero – the vehicles by Volkswagen Commercial Vehicles offer space for needs and dreams and are in use worldwide for people on a mission.

At the sites in Hanover (Germany), Poznań (Poland), and Września (Poland), more than 21,000 employees produce vehicles for both commercial and private customers. Transporter, Caravelle, Multivan, Caddy, Crafter, California, Amarok, and the ID. Buzz delight and inspire customers every day. With the ID. Buzz AD, Volkswagen Commercial Vehicles is producing the first fully autonomous production vehicle in Europe and shaping the future of mobility as a manufacturer. Headquartered in Hanover, the brand is shaping the mobility of today and tomorrow – meeting all the demands for clean, intelligent, and sustainable mobility. This is what Volkswagen Commercial Vehicles stands for with its brand promise: success, freedom, future.
